WHAT WE DO

Akaliko Global Group keeps mining machines working. Our companies and partners manufacture, supply, repair and remanufacture components such as hydraulic cylinders, undercarriage parts and wheel motors. Our field crews monitor wear, plan maintenance and carry it out on site, helping mine operators keep their fleets running.

OUR COMPANIES

AND PARTNERS

Akaliko Global Group brings together its own companies and a partner network of manufacturers, component specialists, technology providers and service companies.

Akaliko companies

ROCKMAC POWER MOTIVE · BORE-TECH SOLUTIONS & MANUFACTURING LTD. · UHT United Hydraulic Technology Your Hydraulic Solution · CongoReman · Ariya

Partners

XCMG · CRRC · iTm · MESABI Flexible Core Heat Exchangers · MiMOTION · JACON EQUIPMENT · MH GROUP · SLEIPNER

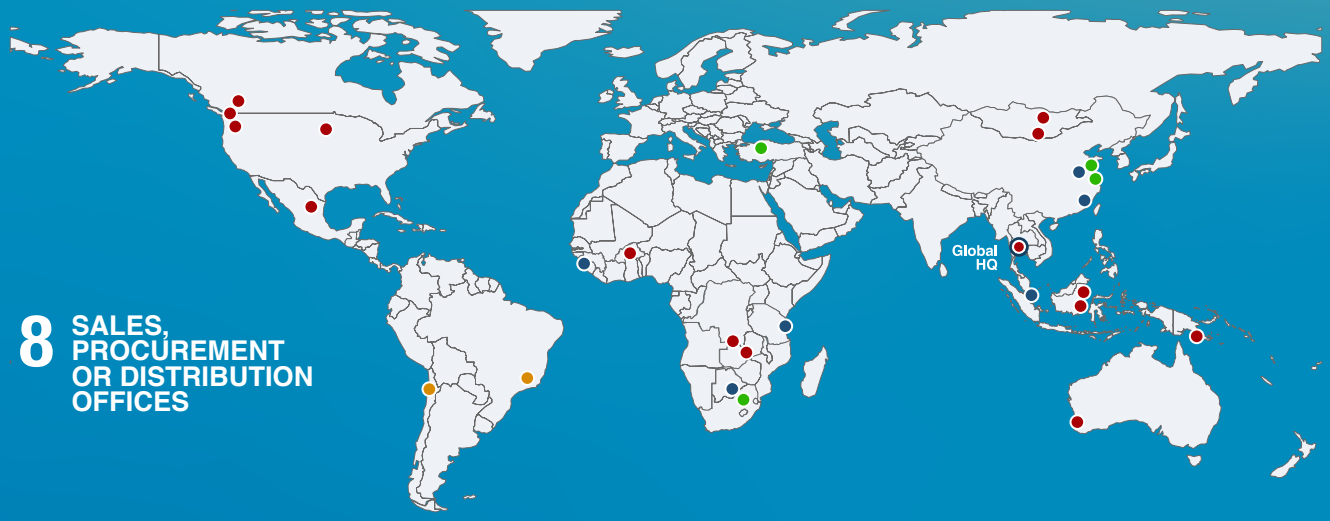
This list highlights selected partners and is not exhaustive.

GLOBAL PRESENCE

- Service and remanufacturing centers
- Sales and distribution offices
- Manufacturing and procurement hubs
- Future projects

All our service centers offer inventory management, exchange and consignment.

27 LOCATIONS | **18** COUNTRIES | **6** MANUFACTURING HUBS | **15** SERVICE CENTERS



8 SALES, PROCUREMENT OR DISTRIBUTION OFFICES

ASIA PACIFIC

- **Akaliko THS**

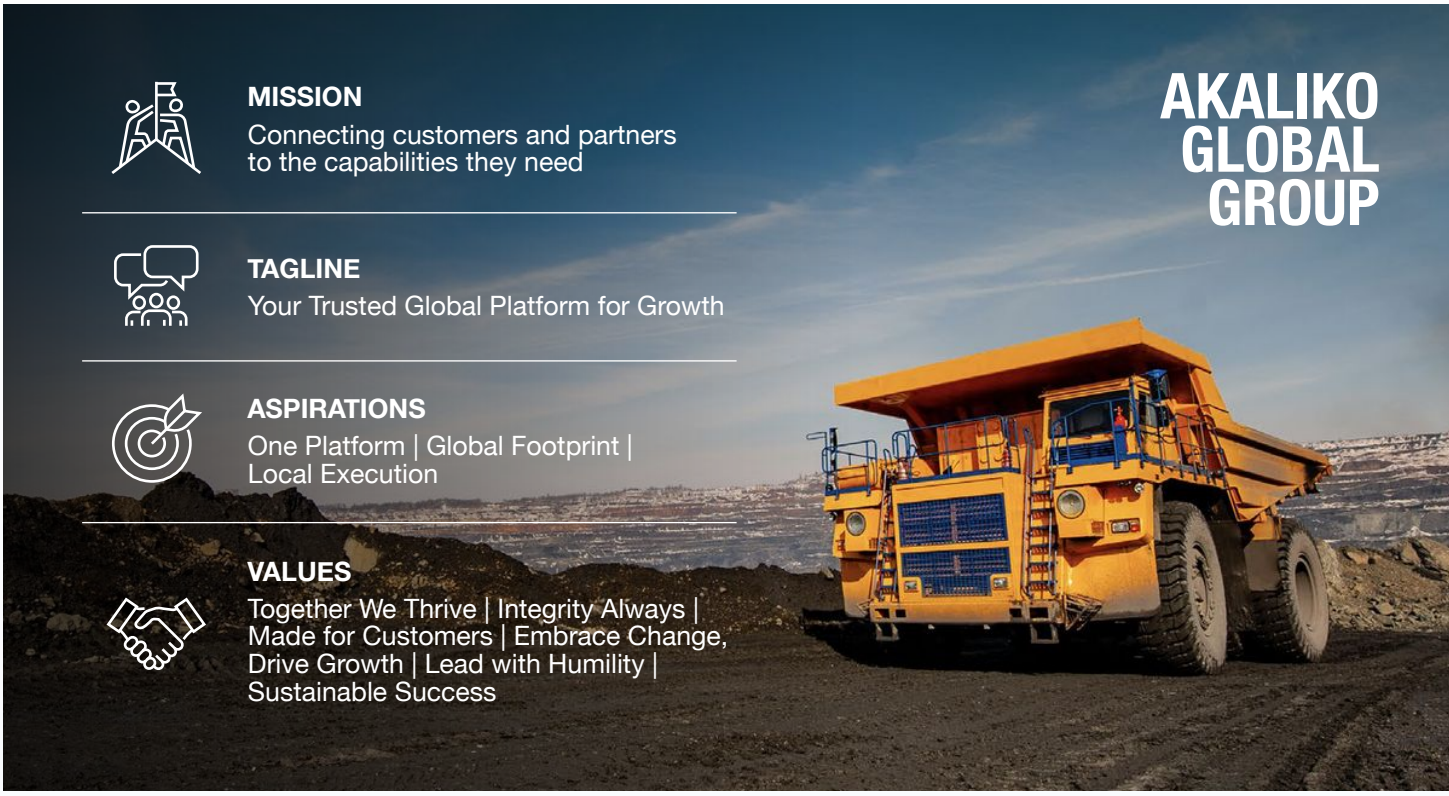
  Ankara, Türkiye

GROWING TOGETHER

Our mission is to connect customers and partners to the capabilities, resources and opportunities they need.

TIMELESS



OUR SUSTAINABILITY PRIORITIES

Safety first
Stop unsafe work, report incidents and near misses

Respect
Fair treatment for everyone we work with

Responsible business
No bribery or corruption, and fair competition

Fair partners
Suppliers chosen fairly and held to the same standards

Remanufacturing
Worn components rebuilt to a defined specification

Exchange
Worn components return to the workshop for remanufacturing

Environment
Reduce waste and the impact of our work

OUR HISTORY,

FROM 1993

Snapshots of a history that began with Thai Hydraulic Services.

1993
Thai Hydraulic Services founded in Thailand.

2007
Into Indonesia through United Hydraulic Technology

2012
Into the United States through Rockmac

2013
First remanufacturing operation in Mongolia

2014
The Akaliko Global brand was established.

2017
First partnership, with Mesabi radiators as a certified rebuild center

2018
Into Africa with South Africa and Zambia

2019
Manufacturing in China with Ariya; establishment of branches in Canada, Burkina Faso, Papua New Guinea and Kazakhstan.

2021
Akaliko Intercontinental in Türkiye; DR Congo; Complete Components in Australia

2022
Into Guinea

2023
Undercarriage partnership with ITM; Botswana and Akaliko Australia

2024
Remanufacturing center in Mexico; Tanzania, Ghana and Western Australia

2025
China operations headquarters in Xuzhou; strategic partnerships with XCMG and CRRC

2026
Distribution partnership with Motion Indonesia

ONE PLATFORM.
GLOBAL FOOTPRINT.
LOCAL EXECUTION.

ONE PLATFORM,
SIX CAPABILITIES

Six capabilities that customers use and partners connect to.

• Our ambition is to build on each participant's strengths, connect missing capabilities and bring the right partners together to meet customer needs and pursue new opportunities.

• This approach enables our companies and partners to share access to products, technology, facilities, knowledge and markets, with local teams delivering support close to the customer.

ONE PLATFORM

Commercial & market partnerships

Regional remanufacturing & service centers

Workforce & technical services

Global supply & manufacturing

Asset deployment & inventory solutions

Engineering

EVERY HOUR COUNTS

In mining, downtime leaves crews waiting and schedules disrupted. The platform's components and services are organized around keeping machines working.

Components ready near site
Exchange and consignment stock near site, so change-outs don't wait.

Skilled crews close to the mine
Service centers and field crews where our customers work.

Longer component life
Engineering upgrades that lower cost per hour.

Extending component life
through remanufacturing

Remanufacturing takes the whole component apart and rebuilds it to a defined specification.

Our engineers improve designs where components wear out early.

In service

Swapped for a new or remanufactured one

Remanufactured

Kept ready

Akaliko® Hydraulic Cylinders

Premium aftermarket hydraulic cylinders for demanding mining applications.

For haul trucks, excavators, dozers, loaders, drills and motor graders, including machines over 800 metric tons.

Covers machines from Caterpillar, Komatsu, Hitachi, Liebherr, Sandvik and many more.

Manufactured in China and Türkiye.

Dump trucks **Excavators** **Dozers** **Loaders** **Motor graders**

Disclaimer: All OEM names, trademarks and model designations, including CAT, Komatsu, Hitachi, Liebherr, Sandvik, Atlas Copco, BELAZ and other manufacturers, are the property of their respective owners and are used for identification and reference purposes only. Akaliko supplies aftermarket components and is not affiliated with, endorsed by, or an authorized representative of these manufacturers.

Mining Components

Components made with specialist manufacturing partners, supplied and supported by Akaliko.

Undercarriage parts, wheel motors, radiators, slew bearings and final drives.

Rims, ground engaging tools, buckets and hydraulic pumps.

Made by specialist manufacturers. Our engineers validate drawings and ensure compatibility.

Undercarriage parts

Wheel motors

Final drives

Mining Equipment

Specialist equipment for moving machines, working underground and running fixed plant.

Official Sleipner distributor of dollies and lowbed trailers for moving excavators, drills and dozers.

Distributor of JACON shotcrete sprayers, concrete transporters and charging vehicles.

Fixed-plant equipment supply, installation and maintenance.

Sleipner transport systems

JACON underground equipment

Shop online at shop.akaliko.global

Exchange & Consignment

Components ready when a machine needs one, on terms set in each contract.

Exchange: swap a worn component for a new or remanufactured one.

Consignment: agreed stock kept at site, paid for when used.

Stock held across our network, with bonded warehousing including in Ghana.

- Exchange program
- Consignment stock
- Bonded warehousing
- Distribution hub partners

Repair & Remanufacturing

Remanufacturing close to the mine.

Remanufacturing of hydraulic cylinders, radiators, transmissions and more.

Component and full machine rebuilds.

15 service centers in Africa, Asia Pacific and North America.

- Cylinder repair
- Radiator repair
- Component rebuilds

Field Services by AWTS

AWTS is Akaliko's workforce and technical services business.

Skilled crews for maintenance and site work.

- Expert technicians for maintenance, change-outs and shutdowns.
- Wear monitoring and maintenance planning.
- On-site repairs.
- Asset management with Asset Solutions Mongolia.

Maintenance | **Shutdowns** | **On-site repairs**

Engineering & Consulting

Expertise to improve components and maintenance decisions.

- Reverse engineering, material analysis and design improvements.
- Reviews of repair quotes and supply contracts, and shutdown planning.
- Mine IQ software for cylinder and undercarriage health.

HOW YOU JOIN

JOIN. CONNECT. GROW.

WHO CAN JOIN

Five kinds of business connect to the platform.
Each brings something different.

Manufacturers & suppliers
Bring your products and production capability.

Distributors & dealers
Bring your local presence and market knowledge.

Workshop owners
Bring your facilities and repair expertise.

Product & technology owners
Bring a product, design or development opportunity.

Technical service businesses
Bring your team's specialist skills.

Disclaimer: All OEM names and model designations are trademarks of their respective owners and are used for reference only. Akaliko supplies aftermarket components and is not affiliated with or endorsed by these manufacturers.

HOW PARTNERSHIPS WORK

Every partnership starts with a conversation and is shaped around the opportunity.

1

Tell us what you have in mind

Describe your business, the products or expertise you bring, and the markets you want to work in.

2

Explore the fit together

We look at the requirement alongside each business's experience, capacity and local presence.

3

Agree on a practical scope

If there is a fit, we define the work, responsibilities and terms before proceeding.

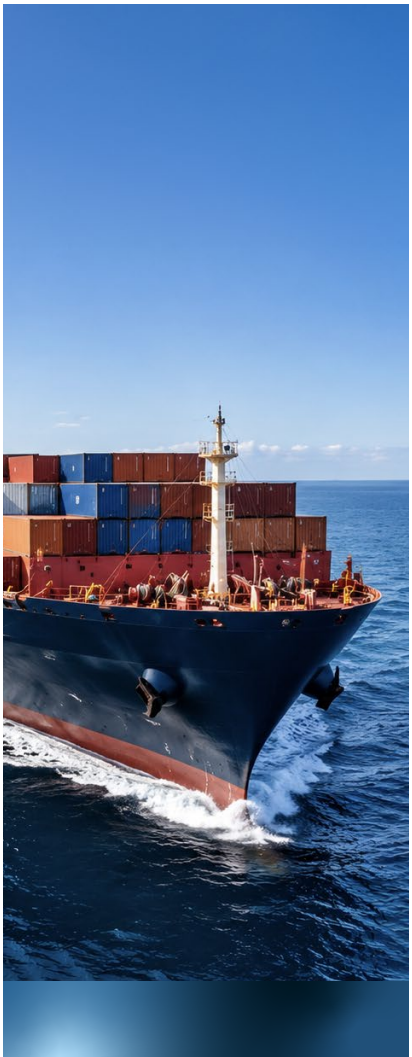
Start the conversation at akaliko.global/contact

SHARED RESOURCES ACROSS THE NETWORK

What our companies and partners share

Akaliko Global Group brings together capabilities in sourcing, manufacturing and technology. Connecting our companies and partners makes better use of shared expertise, facilities and resources.

GLOBAL SOURCING



LOCAL OPERATIONS

SHARED EXPERTISE

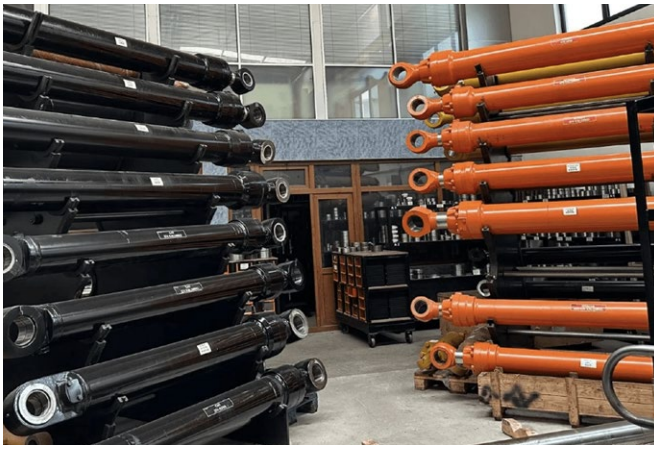
PARTNERSHIPS

IN PRACTICE

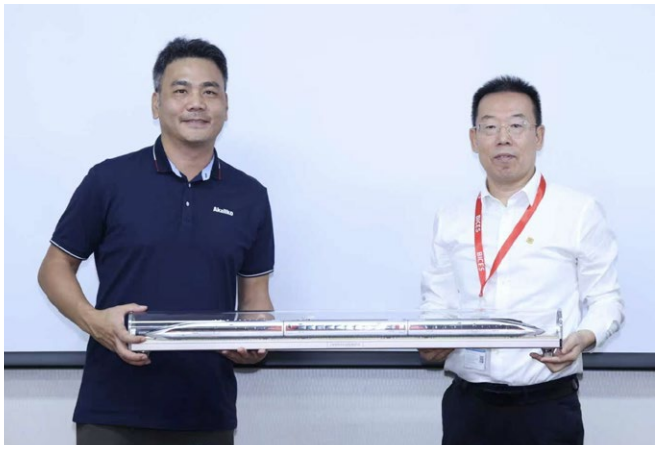
No single business covers everything a mine needs. Akaliko Global Group works with manufacturers, distributors and technology owners across the mining industry. These are some of those relationships.

Strategic alliance with XCMG

Distribution partnership with Motion Indonesia



A manufacturing joint venture in Türkiye



Wheel motor partnership with CRRC

Sleipner distribution in five countries

Center of Engineering Excellence

Disclaimer: Partner names and logos are shown for identification only. This list is not exhaustive. All OEM names and model designations are trademarks of their respective owners and are used for reference only. Akaliko supplies aftermarket components and is not affiliated with or endorsed by these manufacturers.
